Last Heroes 1 Walkthrough

Welcome to Last Heroes 1 walkthrough. My name is Tom Biafra. I'm from Indonesia.

I am sorry for my poor English.

Hmm, this walkthrough really need improvements here and there. There are a lot of aspects that I forget or lazy to write. E.g., in the boss battle, one of the boss' spell is multi attack and inflicting status effect. But I forgot which is which. Another example might be... is this walkthrough too much of a spoiler? If anyone is willing to improve this walkthrough, be my guest.

Well, let's start, shall we?

Last note: this is an RPG. So you should know the drill.
Very last note: What if someone is new to playing this kind of stuff? Would anyone be kind enough to put on some guide for it? This is an RPG, level up system, character status, status effect, turn-based system,etc, etc.

Color Guide:
Pink : HP restorative
Blue : MP restorative
Green : Status restorative
Purple : HP and MP restorative
Dark Red : Equipment
Dark Blue : Stat boosting
Orange : Money
